They Held Honest-to-Gosh Picnics Back in 1919

and his brother, visiting last week in a bunch of old memories of was taken in

1919 on the Fourth of July at Home Creek ranch in Catlow Valley. There are, as nearly as can be counted, 85 persons in the photo. It is believed that many present day Harney countians were present at this picnic and if anyone can help identify them the Crows

would be most appreciative. As in so many cases, when the picture was taken everyone knew everyone else—so why write down the names? Look at the length of that tablecloth spread on the ground. It would probably be safe to say that everyone ate well that day.
